

Crossarm Bracket Datasheet

HB-CAA01

Features

- ◆ High strength
- ◆ Excellent resistance to rust and corrosion
- ◆ Suitable for use in harsh or outdoor environments
- ◆ Easy to apply and adjust for efficient installation.

Performances

The performances of this product material are fully compliant with the following international standards:

- ASTM A123: Standard Specification for Zinc (Hot-Dip Galvanized) Coatings on Iron and Steel Products

Specification

Material	Hot-Dip Galvanized Steel
Bracket Dimension	500*50*50mm Nominal
Thickness	5mm Nominal

Installation

Use pole clamp to secure the crossarm to the utility pole. Once the crossarm is securely attached to the utility pole, install the cable onto the crossarm using cable clamps to keep the cable in place and protect them from damage.

Other Model

- HB-CAB01 Hook Type Crossarm
- HB-CAC01 Plate Type Crossarm
- HB-CAD01 Extension Type Crossarm
