

Pole Clamp Datasheet

HW-GH01

Features

- ◆ High strength
- ◆ Excellent resistance to rust and corrosion
- ◆ Suitable for use in harsh or outdoor environments
- ◆ Easy to apply and adjust for efficient installation

Performances

The test methods and performances of this product material are fully compliant with the following international standards:

- Standard Specification for Zinc (Hot-Dip Galvanized) Coatings on Iron and Steel Products
- ASTM B117: Standard Practice for Operating Salt Spray (Fog) Apparatus

Specification

Material	Hot-Dip Galvanized Steel
Clamp Dimension (length*width*bolt)	280*300*122mm Nominal
Nut Size	5/8"
Salt Spray Test	1000 hours
Weight	1,330g Nominal

Installation

Unscrew the nut from the two legs of the pole clamp, attach the clamp to the post; Then feed the two legs through the hole of the cross-arm bracket; Finally, screw the nut to fasten the bracket to the post.

Other Model

HSW-GH02, 1/2" thread
